Attempt.

1. Make the Background white

Result

Too bright.!

The edge of cats merges well
but the 'card flip' effect is lost

Action

Keep the original 240 background

2. Merge description and history.

The text chunk is too long.
(hard to read)

Use regular font for description
and light font for history.

↳ Solution 1: Chop some of the
unimportant lines

Still Doesn't look good.

Solution 2: Use a thinner
font for history.

works ok. ✓

3. Line width adjustment.

① Use text leading

No, doesn't work for multi-paragraph.

② Count text physical length
and the number of lines
it takes.

Yes. works fine. ✓

4. Close button.

Doesn't work ~~well~~ ^{better} than clicking anywhere.
Sometimes covers text.

Keep "click anywhere"

5. Move details. (Nationality)

- ① Add ~~at~~ after description & History block
- ② Add at the left blank

Too much words. (especially for Maine Coon)
Can't find good fonts
Screen gets too crowded.

③ hover image to show

No, users will get confused.

④ "Show detail" hover.

→ Problem: people tend to click on it and close the tab directly.
Good: No one gets confused.
Looks not so ugly.

(Temp) Show details on the left white screen when the "Show detail" text is hovered.

6. Credits.

No problem

Add at the bottom right corner.

7. Buttons

No problems

Made it thicker and larger.
