

Have another page for high level stats? (# of tracks sampling, # tracks Lauryn released, # of Grammy's, etc.)

Allow for two views - all album cover images and all colors (to sort by genre, track sampled, etc)

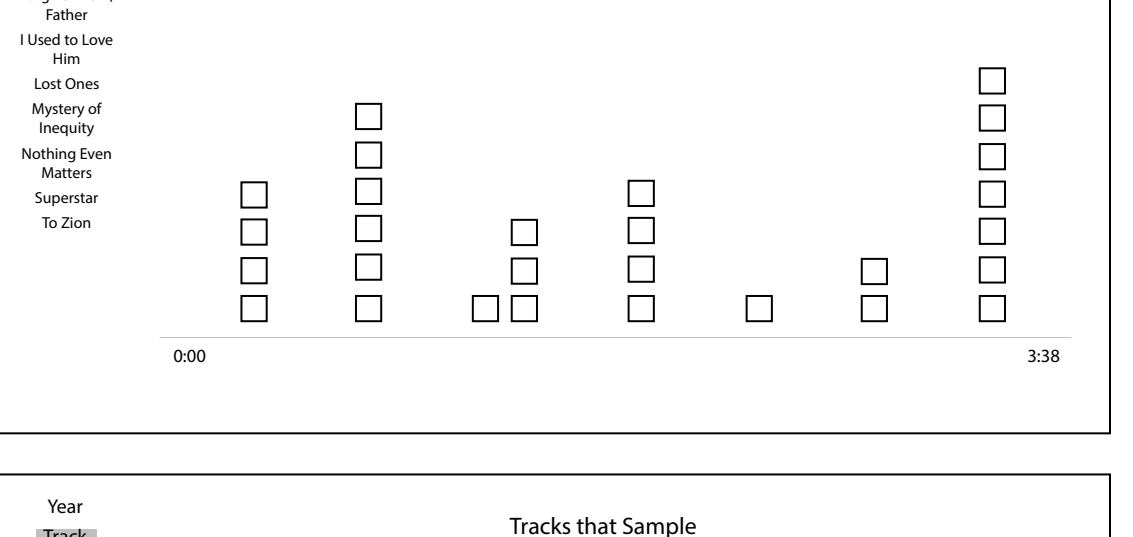

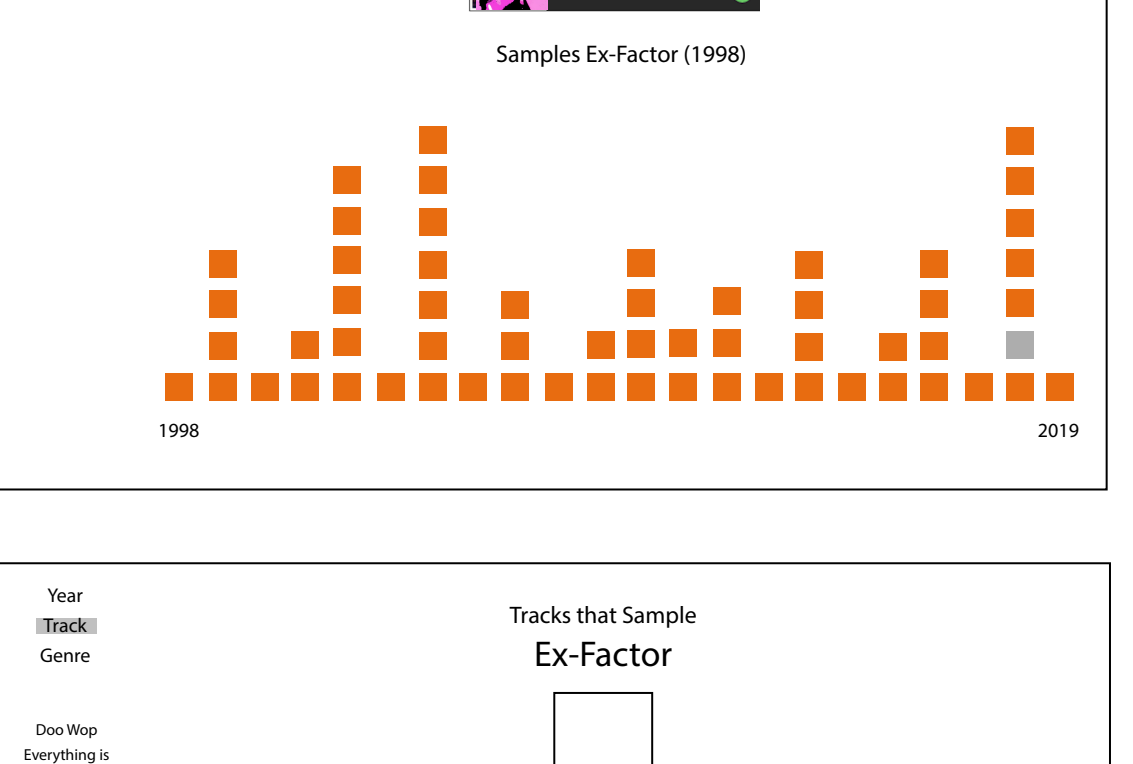

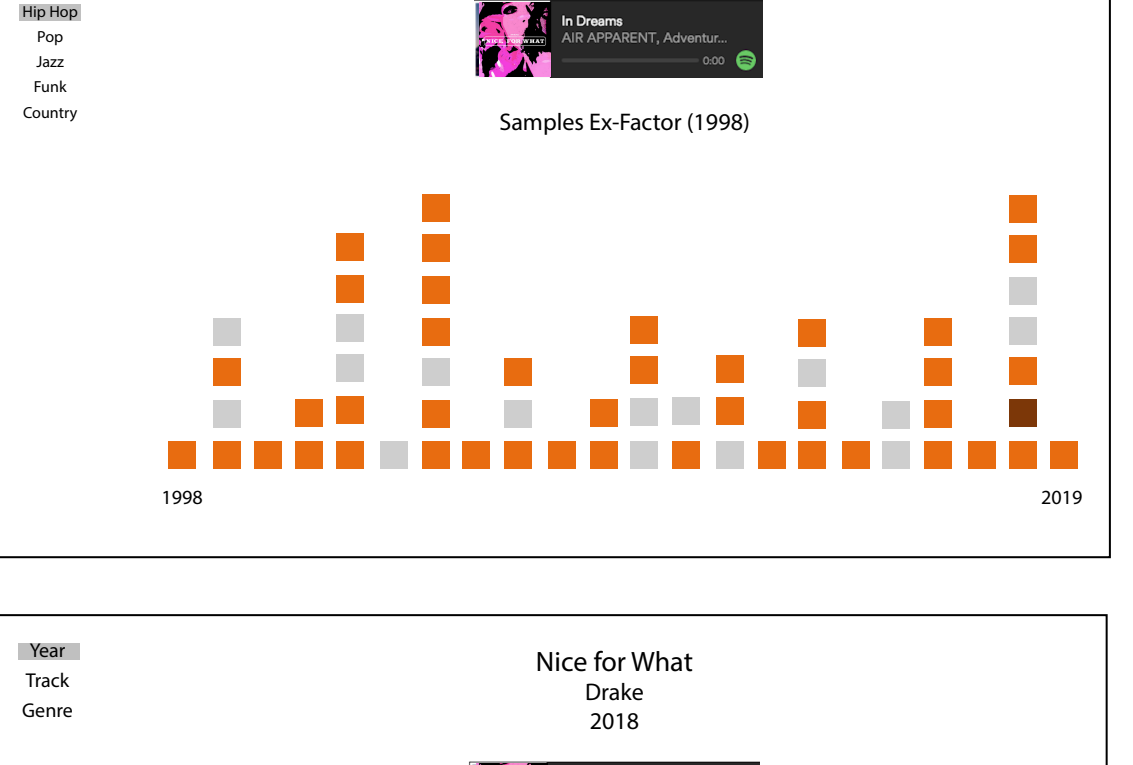

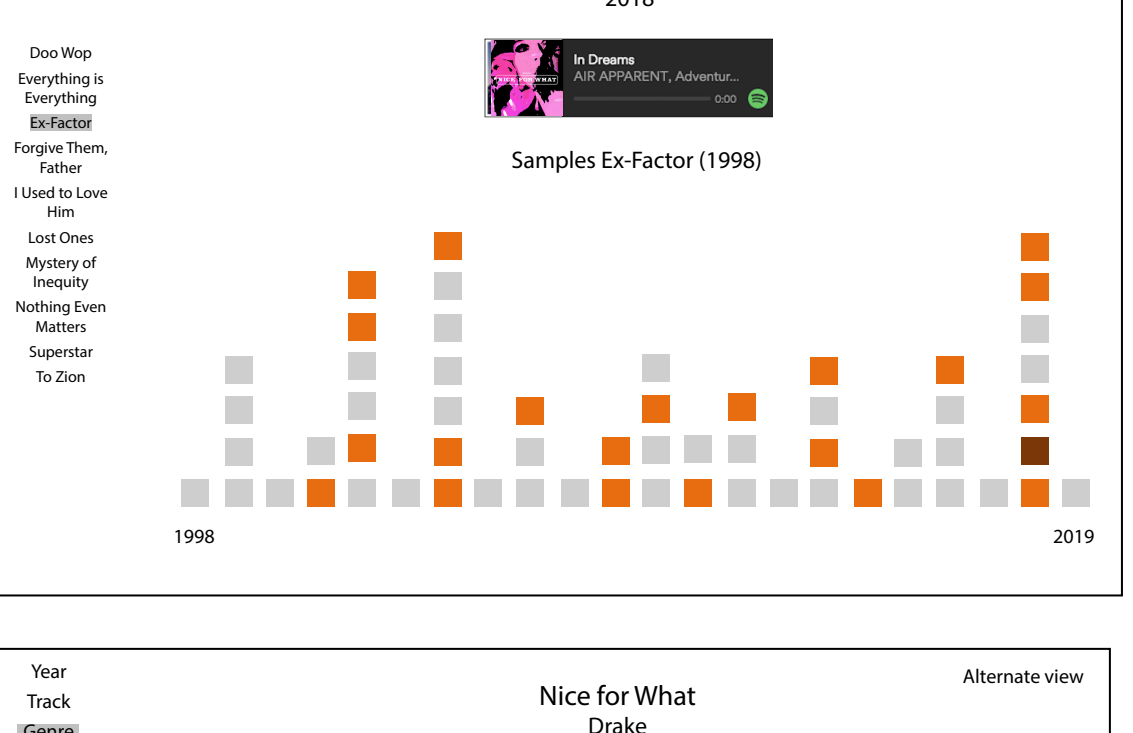

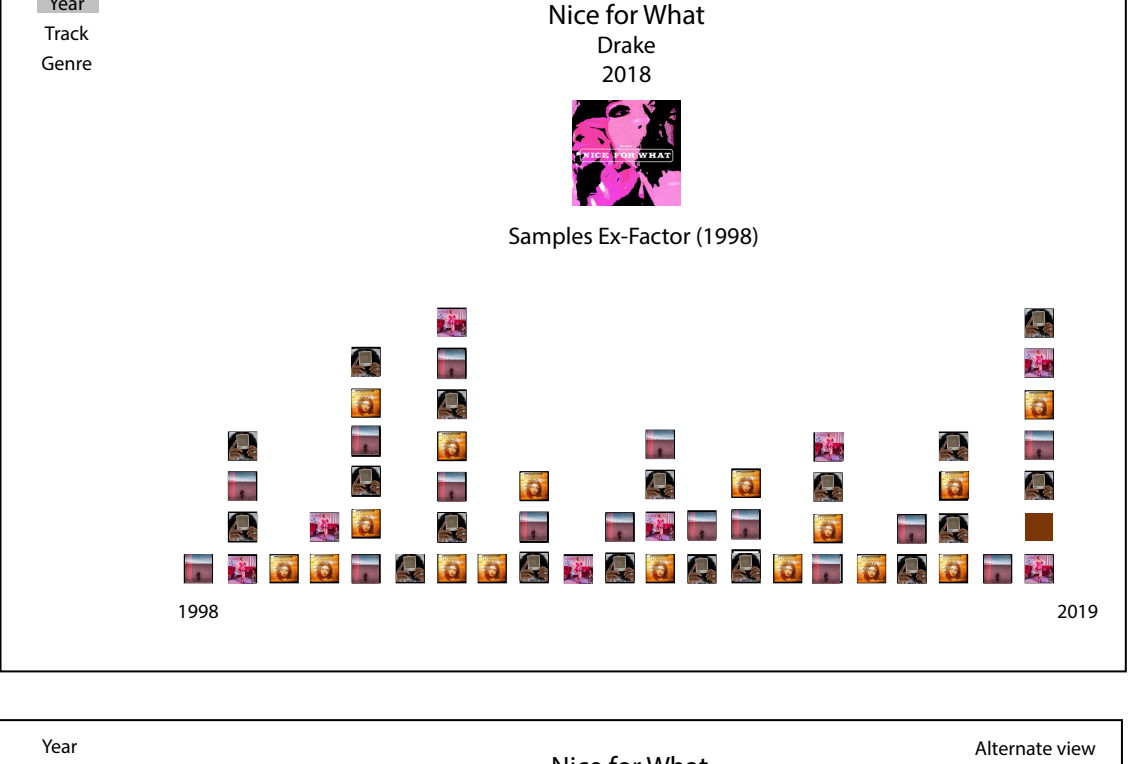

Play sampled audio clip on hover?

Tracks by popularity

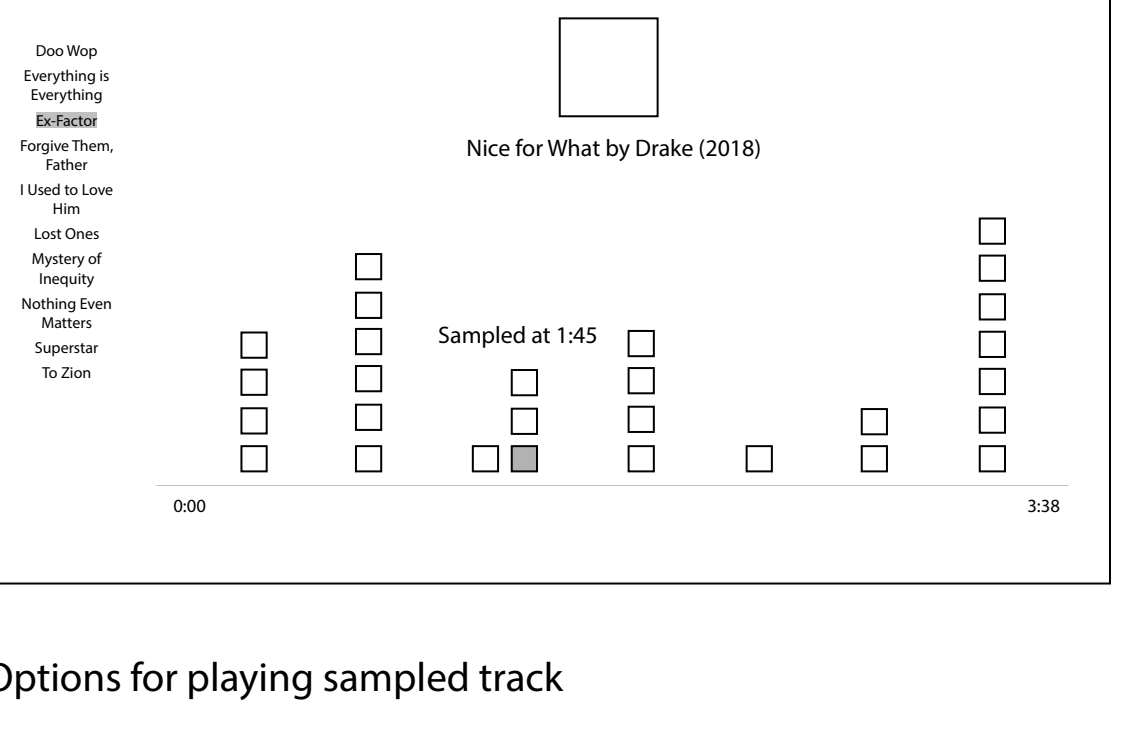

Combine as alternate view for the first screen?

If there's time, also create page for the tracks that Lauryn sampled

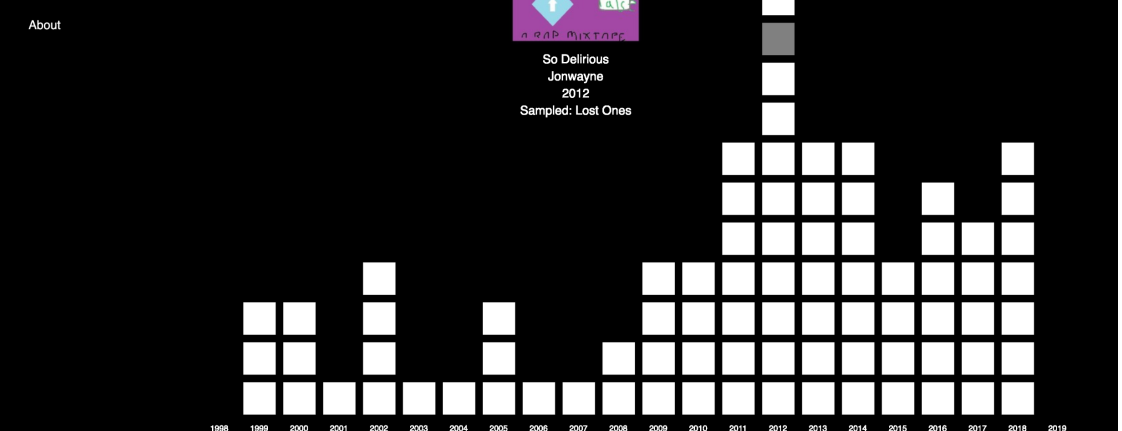

Can click big square to play full sampled track

Can click big square to play clip of track

Can click smaller square to play clip of sampled track

Options for playing sampled track

Click smaller square to play clip of track
